These results provide the first empirical evidence on the impact of the 2002-2003 tax reform on the labor market. The results show that the reform had a significant impact on the labor market, leading to a significant increase in the number of jobs created and a significant decrease in the number of jobs lost. This suggests that the reform had a positive impact on the labor market, leading to a significant increase in the number of jobs created and a significant decrease in the number of jobs lost.

## Disaster-response experts urge new local rules to draw up zoning laws to identify danger zones

Disaster-response experts urge new local rules to draw up zoning laws to identify danger zones. The experts are calling for the local government to implement zoning laws that identify areas that are prone to disasters. This will help the government to plan for disasters and to evacuate people from danger zones. The experts are also calling for the local government to invest in disaster-response infrastructure, such as early warning systems and evacuation routes. The local government is expected to consider the experts' recommendations.

## Mixed use condominium project in CCP Complex

**By Marissa A. Reyes**

GSIS and Megaworld are teaming up to develop a mixed-use condominium project in the CCP Complex. The project is estimated to cost P3.5 billion. The two companies are currently in the planning stage and expect to start construction within the next few months. The project will consist of a mix of residential and commercial units, as well as a parking area. The location is highly strategic, being adjacent to the CCP Convention Center and the Ayala Center. The project is expected to be completed within 18 months.

## 'Watsu'—'shiatsu' massage in water

By [Name] [Address] [Phone] [Email]

By [Name] [Address] [Phone] [Email]

**W**atsu is a combination of shiatsu and water. It is a form of massage that is performed in a tank of water. The therapist uses their hands to apply pressure to the client's body while they are floating in the water. This allows the therapist to use less force than they would on land, making it a gentler form of massage. Watsu is also a great way to relax and de-stress.

# Can ghosts appear in churches?

It is a common belief that ghosts can appear in churches. Some people claim to have seen ghosts in churches, while others claim to have felt their presence. The question of whether or not ghosts can appear in churches is a controversial one, and there is no definitive answer. However, there are many stories and accounts of people who claim to have seen or felt ghosts in churches. Some of these accounts are quite detailed, and some are quite dramatic. For example, one woman claims to have seen a ghost in a church. She says that she was alone in the church one day, and she suddenly felt a cold draft coming from behind her. She turned around, and she saw a figure standing in the doorway. She was terrified, and she ran out of the church. Another man claims to have felt a ghost's presence in a church. He says that he was in a church one day, and he suddenly felt a strong sense of peace and tranquility. He says that he felt like he was being embraced by a warm, loving presence. These are just a few of the many stories and accounts of people who claim to have seen or felt ghosts in churches. Prayer is a powerful force that can help you to feel closer to God. It is a way to communicate with God, and it is a way to ask for His help. Prayer is also a way to express your gratitude to God, and it is a way to praise Him. Prayer is a powerful force that can help you to feel closer to God.
